

Enhance Your Property

With a beautiful set of handcrafted gates from Magpie.

Automated security gates offer a progressively more popular way of controlling entry to your home.

Not only will you benefit from added protection, automated gates will enhance the look and value of your property. We offer many choices of gates.

Each of our products can be specially customised to suit your needs and specifications. Gate posts can be constructed in brick, stone, metal or wood. Vertical steel supports can be concealed within the brick or stone piers.

Quality Gates for your home.....

Pedestrian Gates

Created as a bespoke project or designed to match existing entrance gates, either way they will give you added security and convenience.

As with our larger gates these can be fully automated and can be operated remotely from inside your property by audio or video monitoring systems or can be opened via digital keypad with trade button access.

Magpie will happily undertake any building work that is required including all electrical and telecom requirements.

Quality Gates for your home.....

Balconies Steel and Glass

We manufacture balconies and balustrades for both internal and external applications. Working with a choice of materials including steel, stainless steel and glass, we are confident that we can design and manufacture the right product for your particular requirement.

You will find our balconies at many prestigious commercial and domestic developments throughout the UK.

As with all our products balconies are bespoke and are available in steel, stainless steel aluminium and with glass. They can also be manufactured with a variety of finishes including powder coating, galvanised and painted.

Finishing touch for any building

Railings

These can compliment your existing gate or be part of an individual project. Railings can be made to be purely functional and also can be created to compliment the appeal of your property.

Our railings are made to the highest standards and can be traditional or contemporary in design.

Bespoke Applications.....

Bespoke Contracts

Lower Mill Estate near Cirencester Gloucestershire is a unique development combining a number of bespoke second homes within an idyllic wildlife reserve. It represents a huge ongoing project.

Magpie are proud to have been involved with Lower Mill since its conception. This project probably encapsulates our entire product range from railings, balconies, gates and glasswork right through to the vast structural metalwork required for the pool area.

Lower Mill Estate project clearly demonstrates our commitment to reliability and quality.
